## IN $\begin{aligned} & \text { children are economically disadvantaged } \\ & \text { in the Richmond Region }\end{aligned}$

Children living below 200\% of the poverty level are economically disadvantaged and live in families that struggle to meet basic needs: food, housing, utilities, child care, and transportation.

## Virginia children of every race and ethnicity face hardship

Over time, a variety of federal, state, and local policy choices have had disproportionate impacts on families living in certain regions or belonging to certain races and ethnicities. Those effects are still felt today. To improve economic opportunity, we must recognize children have different starting points, which may require different policy solutions.
