Over time, a variety of federal, state, and local policy choices have had disproportionate impacts on families living in certain regions or belonging to certain races and ethnicities. Those effects are still felt today. To improve economic opportunity, we must recognize children have different starting points, which may require different policy solutions.
We champion public policies that improve the lives of Virginia's children.

Voices is the home to the KIDS COUNT Data Center, which is generously funded by the Annie E. Casey Foundation.

Data helps us ask more questions about what is happening in a community and often does not provide any direct answers. To learn more about the data, sources, or child well-being in your community, please contact KIDS COUNT Director Beth Nolan at beth@vakids.org.

*FPL stands for Federal Poverty Level. The federal poverty definition consists of a series of thresholds based on family size and composition. In 2016, a 200% poverty threshold for a family of two adults and two children was $48,600.
