**Note:** The data reflects the most recently available information, which results in some variation of years by indicator. Those indicators with \* may include small counts and will need to be interpreted with caution. Not all percentages will add up to 100%, because not all races are listed and values are rounded.

Data helps us ask more questions about what is happening in a community and often does not provide any direct answers. To learn more about the data, sources or child wellbeing in your community, **please contact KIDS COUNT Director, Lauren Snellings, at [lauren@vakids.org](mailto:lauren@vakids.org).**
